

Business Advantage Account

Is your short-term cash doing its part?

Earn 1.50%* on your business savings account

As a financial advisor I am committed to recommending simple financial solutions that suit your business needs.

Most banks don't pay any interest on deposits left in operating accounts. We have an easy way to get your excess cash contributing to your bottom line. I am recommending a simple **cash solution** designed to provide a great short-term rate of return without changing the way you bank today.

Manulife Bank's Business Advantage Account works alongside your current operating account and provides a premium rate of interest on your cash!

You can maintain easy access to your money since it is never locked-in and there are no withdrawal restrictions.

This account allows you to:

- Earn a premium rate of interest on every dollar in the account (current rate is 1.50%*).
- Use Internet and telephone banking to transfer money from your operating account and make account inquiries any time.
- No fees if you only use Internet and telephone banking services.

Put your money
to work™
 with Business Advantage Account.

An easy solution that doesn't require changing banks

Even though you cannot find anything that compares to the Business Advantage Account at traditional banks, you can still keep your current banking relationship. This account is simply offering a new way for you to save money. Keep banking the way you are but add this high-interest savings account for your business. Link the two accounts together and transfer money back and forth as you need it.

We're convinced you will value the simplicity and flexibility of this simple addition to your current banking arrangements. And it's risk-free. If this solution doesn't meet your business mandate, the account can be closed at any time.

If it takes money to make money, let's make every dollar count.
